

MINUTES

Attachment Subcommittee

Wednesday, July 30, 2008

Under Technical Committee Block: 7:30 a.m. – 10:30 a.m.

Chair: Fred Higgins, Wayne-Dalton, Corp.

Vice Chair: Dave DeBlock, ODL

-
1. Chair called the meeting to order - antitrust reminder given and reviewed voting requirements
 2. Dennis Anderson (Staff) appointed recording secretary
 3. Minutes from March 2008 (Nashville, TN) meeting were approved as presented.
 4. The agenda was reviewed and approved as presented.
 5. Reports
 - a. Storm Window – Thom Zaremba reported that a re-evaluation of rating storms will be discussed with at least 2 more TG conference calls before the Jacksonville meeting.
 - b. Dynamic Attachment for Swinging Doors – Dave DeBlock reported that work is mostly done and TG to be disbanded soon.
 - c. Exterior Attachments – Fred Higgins reported on the infancy of the TG and provided some background on the progress thus far using a power point presentation. The TG limited the scope of products with regard to attachments to only those that attach to the fenestration and not the wall/building. John Gant presented on European standards for solar shading. Ross McCluney presentation was briefly reviewed.
 - d. Interior Attachments – Michael Cienian presented on the scope change of TG and WCMA. He reported that he has been keeping the WCMA membership up to date on NFRC progress.
 6. Unfinished Business
 - a. None
 7. New Business
 - a. W. duPont mentioned ASHRAE made a change to Handbook.
 - b. D. Smith requested a formation of an Interior Applied Films TG. The TG will be chaired by D. Smith; other members: M. McDonald and L. Winkler
 - c. S. Selkowitz inquired about whether the attachment value could be used in the future for modeling for energy use on other buildings/products.
 - d. R. McCluney suggested that angle of incidence important for rating.
 - e. C. Curcija suggested we consider CMA when moving forward with the progress of attachments.
 8. The meeting was adjourned at 8:23 a.m.
