

Applied Films Task Group
November 3, 2008
Jacksonville, FL
By Dennis Anderson, NFRC Staff

Meeting Notes:

- TG was reactivated due to the request to add U-factor ratings of applied films.
- Change of base case reference window due to the activities in the Attachments TG's. U-factor rating development on hold until Attachments TG's has established the base case reference window.
- Temporary and permanent labels were addressed in that only 1 label to be utilized and placed on the film kit package.
- Scope was presented and approved to be as follows:
 - Shall develop and access procedure for rating of applied films
