- Quorum not established and so no action was taken on items discussed below.
- Unfinished Business:

Addition of Garage Door Modeling procedures - Simulation Manual

Discussed the documents supplied by ETC Laboratories to DASMA as part of a research project. The Garage Door document did not include glazing and the applicable formula to address edge-of-lite and center-of-lite variables. NFRC Staff to review if NFRC 100 will suffice, along with approved balloted language from Chicago 2008 meeting. Those on the call suggested a letter ballot be sent by NFRC Staff to all TIPPC members to approve the DASMA Research illustrations for the Simulation Manual.
