Biographical Information Submission

FENESTRATION INDUSTRY CATEGORY

- Fenestration Industry Category (specified)
- One slot open for election (3 year term)
 - Specifically for a manufacturer who sells the majority of its fenestration products or systems *for use in residential construction*.”

Steve Harp Alside, Inc.

Steve Harp has been with Associated Materials LLC, a.k.a. Alside Window Company, since 1983. He started out as a product designer, responsible for new product design and continuous improvements to existing products. His other added duties over the years include line layouts and set-up of new production lines for all plants, training of manufacturing personnel, and the conducting of quality audits. Steve also manages the in-house structural test lab as well as AAMA structural and NFRC thermal certification for all products. He also manages the in-house machine shop and weld shop for both product fabrication and prototype development.

Steve is the Associated Materials voting representative for both NFRC and AAMA and has been doing so the past 15 years. He was responsible for his company's involvement in the NFRC and the labeling of nearly all products since their participation. He sits on several task groups and committees within NFRC as well as AAMA. He is the vice-chairman of the Technical Steering Committee within AAMA's Vinyl Materials Council. Steve is also a member of the ICC.
