

Memorandum

Date: September 2, 2009
TO: NFRC Laboratories and NFRC Inspection Agencies
FROM: Scott R. Hanlon
NFRC Senior Programs Manager
SUBJECT: Updates to the CPD 2.0 and NFRC PCP Bulletin 2009-01

Hi Everyone:

Item 1: Updates to CPD 2.0

The following updates have been implemented to the CPD 2.0

- The product line details (individual product options) display in proper alpha-numeric order based on the CPD number.
- The IA is capable of editing these additional fields in the header at the product line detail page:
 - Material info; thermal break code
 - Simulation info: lab code, report date, and size
 - Thermal info: Lab Code, Standard U-Factor, Size, and Report Number
- NFRC Admin and IA can add comments to the Manufacturer detail and Manufacturer screens. Comments entered up to November 2008 were included to the CPD 2.0.
- At the public search page, the “required search criteria” is now highlighted with a brighter color and asterisk (*).
- The MFG program participation selection has been updated for NFRC Staff.
- RES 97 language has been removed from the CPD and Search tool.
NOTE: Please contact staff if there any language referencing RES 97 is visible.

Item 2: Recertification Exemption

The extension deadline for [NFRC PCP Bulletin 2009-01](#) has been revised to December 31, 2009. The 2009-01 bulletin relates to authorizing NFRC Inspection Agencies to provide a six (6) month extension for recertification under Section 5.6 of the PCP for product lines.

NFRC Labs and IAs, Page 2

The NFRC Database Committee intends to review the results of this extension in November and will provide further guidance to the Board at that time.

If you have any questions, please feel free to contact [Sherri Wendt](#) or me at your convenience.

Sincerely,

A handwritten signature in cursive script that reads "Scott Hanlon".
