

Dynamic Attachments for Entrance Door  
Task Group Notes - 001  
15 May 2007

1. Meeting called to order at 11:10 a.m. by Dave DeBlock. The Blind Brochure was reviewed to provide basic concepts of the type of products covered by this POQ.
2. Marcia volunteered to take notes.
3. The following were on the call: Dave DeBlock, Jessica Ferris, Joe Jonely, Jeff Baker, Mike Thoman and Marcia Falke.
4. It was decided that the summary essay should be formatted to the QNA format provided by NFRC. Dave will complete this.
5. The following NFRC documents will be effected:
  - a. PCP: products covered Dynamic attachment for entrance door. These products should be labeled as attachments with the attachment label format. Discussion on listing reference product description. Nothing decided.
  - b. CAP and LAP should also be reviewed
  - c. NFRC 100 u factor:
  - d. NFRC 200 SHGC and VT: Prior to release of Therm 6 test only will be required. Open and closed ratings required.
  - e. Simulation manual will require revisions.
6. Action items:
  - a. Dave will re-format POQ
  - b. Invite the label chair Brad Schultz to join the TG.
  - c. POQ to Technical at Denver meeting. Add to tech agenda.
  - d. Dave will work on label information to be presented at the Denver Task Group meeting – 30 minutes required at a different time than the TDD TG as he chairs both.
7. Meeting adjourned 11:45 a.m.
