- b. Welcome to All Attendees ...Cell phones & pagers to Silent Mode
- c. Antitrust reminder
- d. NFRC Meeting Guidelines
- e. Subcommittee voting requirements reviewed: one vote per member company.

#### 2. Minutes approved from March 2006 (San Diego) meeting as presented.

#### 3. Recording Secretary appointed (Jessica Ferris)

#### 4. Agenda approved

#### 5. Reports

- a. Condensation Resistance pamphlet/brochure working group – report by Jeff Franson  
This brochure is currently in draft form and is targeted towards Architects. Currently under review by the working group and NFRC staff.

It was suggested that a CR table be incorporated into this draft so that the range differential can be referenced to assist in clarifying any confusion there might be between the CR rating and AAMA's CRF.

Additional Comments:

- The brochure should reference that CR can collect on the outside of the window.
  - NFRC should consider having a group of consumers review the final draft of the brochure for understandability purposes prior to finalizing and publishing it.
- b. NFRC 500 Revision Task group – reported by Tom Culp – TG felt that it may not be prudent to spend too much effort in revision at this time while there is so much activity going on with this procedure; e.g., CSA's current work. The TG would like to wait until more work in other areas is conducted first. Jeff Baker asked that Tom report to the Subcommittee on those activities in other areas as they arise. The TG will continue monitoring these other activities.

#### 6. Unfinished Business - None

#### 7. New Business - None

#### 8. Meeting adjourned @ 9:15 AM
