

September 25, 2006 Conference Call

## Minutes

### **NFRC 103 Task Group**

Monday, September 25, 2006

4:00 p.m. – 5:00 p.m.

Chair: *Peter Lyons*

---

Peter Lyons (chair), Willie du Pont, Joe Hayden, Mahabir Bhandari, Marles McDonald, Werner Lichtenberger, and Ray McGowan (staff) attended the call.

Ray McGowan recorded the notes.

Willie du Pont and Bipin Shah will review the NFRC 101 testing requirements for tolerances. Willie du Pont will revise table 1 in NFRC 101.

Potential thermophysical properties interlaboratory testing was discussed. NFRC staff or a national laboratory was suggested to operate a future interlaboratory test.

The proposed data review flow chart was reviewed and edits were suggested. Peter will update the flowchart and submit it to TG members for further review.

Peter Lyons will ask LBNL and a Dutch lab about performing a thermophysical property interlaboratory test.

Willie du Pont will ask Oak Ridge National Laboratory about performing a thermophysical property interlaboratory test.

Peter Lyons will edit the present NFRC 103 draft to include the summer 2006 negative ballots and any of this task group's edits.

Next conference call is on October 25th @ 4 pm ET.
