Meeting Minute Recording Sheet

Name of Meeting:	Non Specular Light Transmittance T-6.	
Chairman:	Dick Troyer	
Recording Secretary:	Richard Bisioe	
Call to Order: Date -	7/25	Time - 8:30
Roll Call:		
Approval of Previous Meeting Minutes:	None Name available	
Business of Meeting:	(MINUTES recorded on the following attached pages)	
	Dick suggested that we are going to "start over"	
	Dick went over history of trying small VLT device vs. LBM integrating sphere.	
	Dick suggested to the T-6 that we should use integrating sphere	
	Dick went over general description of integrating sphere. He said stated the problem is the size of the sphere because the specification (ASTM) requires 200 times the surface area of specimen which requires a 16' diameter for a 24" specimen.
