

Meeting Minute Recording Sheet

Name of Meeting:	TDD TG	
Chairman:	Dave de Block	
Recording Secretary:	Peter Lyon	
Call to Order: Date -	7/28/08	Time - 7:03am
Roll Call:	✓	
Approval of Previous Meeting Minutes:	✓	
Business of Meeting:	(MINUTES recorded on the following attached pages)	
-	Scott Hanton summarized requirements for accreditation. 60 days temporary for ATI (Mike Thoman)	
-	VT Labeling: do we get LBNL to run tests? Paul Taster to report	
-	Independence optical expert: bids being sought by Aug 22nd.	
-	NEW BUSINESS:	
	Willie duPont advised it will be approved by TC4.5. However still needs ASHRAE RAC approval (not a foregone conclusion). Value of project: \$110K	
-	IESNA meeting in early November. They are very interested.	
-	PAUL TASTER: Update on LBNL work: mfrs wrote letter to LBNL to accelerate VT tests. 18-20 months until all equipt. available. Meanwhile will proceed w/ integrating sphere tests	

- Demand from LEED, Title 24, etc. for U, SHGC, VT ratings ("bombed")
- From September, test will replace simulation for U-factor [in Sim Manual].
- ~~VT~~ VT test is at 30° solar altitude
SHGC " " " 60° solar altitude
- Ross McClure pointed out that a better characterization would have a range of solar altitudes & azimuths. Can this also be simplified into simple, single numbers?
Fundamental need to incorporate angular dependence into ratings for products like TDDs & skylights.
- TG will hold technical working session to figure out what we need to do.
→ Lunchtime Monday.
