

Minutes

Solar Heat Gain Subcommittee

Wednesday, March 8, 2006

Under Technical Block: 8:00 am –3:00pm

Chair: *James Larsen, Cardinal Glass Industries*

1. **The Chair called the meeting to order at 9.15 am.**
2. **Ray McGowan appointed recording secretary (Staff)**
3. **December 1, 2005 Santa Fe meeting Minutes approved.**
4. **Agenda reviewed, edited, and approved.**
5. **Reports:**
 - a. Rich Biscoe reported on *Fenestration Attachment Solar Calorimetry Test task group* activities. Limited activity thus far but conference calls will be scheduled. New participants: Willie du Pont, Ross McCluney, Lisa Winkler. This TG will now perform this work under the Solar Calorimeter Task Group.
 - b. Chuck Hayes reported on *Dynamic Glazing Task Group* activities. Primary activities are on dynamic glazing implementation of their developed language. This TG will no longer report to SHG SC since its activities are now at certification.
6. **New Business**
 - a. Dave Deblock reported on *TDD TG* activities regarding VT values that will be developed with LBNL's integrating sphere. Primary activities presently are a *proof of concept* before official pursuit of values. CA requires VT values. Bipin Shah directed the existing VT TG work monitor these efforts. New VT TG members: Willie duPont, Ross McCluney, Paul Jaster, Dave DeBlock, Christian Kohler, Charlie Curcija, Mike Thoman, Jim Larsen.
7. **Adjourn**
