

WINDOW6 / THERM6 Validation Research PMTG

Conference Call Notes

Monday, December 21, 2009

12:30 – 1:30 p.m. EST

Chair: Joe Hayden, Pella Corporation

- 1) Roll call: *Charlie Curcija, Willie duPont, Joe Hayden, John Lewis, Peter Lyons Ross McCluney, Ray McGowan*
- 2) Status of SHGC and U-Factor testing.
 - All SHGC reports and raw data obtained
 - U-factor reports obtained, raw data confirmation nearly complete, Willie to obtain final data from ATI by 1/4
 - Willie to provide Charlie with remaining test report data, except the inside venetian blinds and outside shades, in proper format by 1/4. The venetian blind and outside shade data will be provided by 1/13
- 3) Comparison of test & simulation results.
 - Review of updated spread-sheet.
 - SG01, SG02, SG04 u-factor and SHGC results need to be reviewed for poor simulation-test agreement
 - BS03, BS04 SHGC simulation-test agreement need to be considered further
 - Status of remaining standard conditions simulations
 - ATI to confirm remaining frame details & glazing fit information for SG03; will be completed by 1/4
 - Drawings for IS04-07 from Willie to Charlie, due by 12/21
 - Remaining information for IS03 from Willie to Charlie, due by 1/4
 - Remaining mounting detail information for OS01-02 from Willie to Charlie, due by 1/14
 - Remaining mounting detail information for BS01-02 from Willie to Charlie, due by 1/4
 - BS06-11 simulations to be completed by 12/28 provided Charlie receives updated spreadsheet by 12/21
 - Status of simulation under actual conditions
 - Willie will provide Charlie with actual simulation conditions by 1/27
 - Charlie will complete simulations by 2/10
- 4) Next conference call on Monday, 1/11 @ 1 pm ET.
