NFRC Welcomes New Employees and Announces Promotions

GREENBELT, Md. (February 24, 2010) – The National Fenestration Rating Council (NFRC) recently welcomed Anita Marsh and Robin Merrifield to its staff. Marsh is NFRC's new Manager, Member Relations, and Merrifield joined the staff as its Documents Coordinator.

Marsh is responsible for planning, managing, and operating NFRC's membership program. Prior to joining NFRC, Marsh served as the Membership Manager at the Council on Foundations, where she was an integral part of the Council's efforts to grow its membership.

She has been involved with the non-profit sector for many years, with experience in membership management, consulting, grants management, energy conservation, urban environmental projects, housing rehabilitation, and public-private partnerships.

Marsh is a founding member of both The Black Benefactors and the Black Philanthropic Alliance, and is a long-time member of the American Society of Association Executives. She is a graduate of Northeastern University and did graduate studies toward an MBA at Texas Southern University.

Robin Merrifield brings extensive editorial and document management skills to her new position as NFRC's Documents Coordinator. She will maintain NFRC's technical and program documents and assist with balloting and meetings. Before joining NFRC, she served as the Director of Education for the Foundation for Chiropractic Education and Research. Merrifield is a graduate of Southern Adventist University.

NFRC also announced today the following promotions:

- Jim Benney to Chief Executive Officer
- Deborah Callahan to Chief Operating Officer
- Robin Clayton to Controller
- John Lewis to Director, New Business Programs
- Scott Hanlon to Program Director

###

About NFRC

NFRC is a non-profit organization that administers a voluntary, uniform rating, labeling, and certification system for the energy performance of windows, doors, curtain walls, skylights, and other fenestration products. Its members include manufacturers, suppliers, utilities, consumer groups, representatives from the building and code industries, scientific and educational organizations, and government agencies.
